

With Hundreds to Choose From...

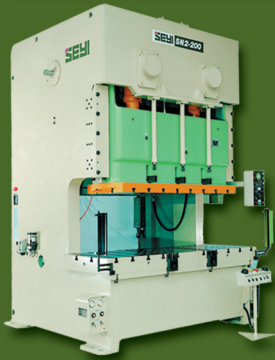

**Only One SEYI
Solution is Right for You!**

A wide range of models, tonnages, bed sizes...you bet!

Just as important is how we listen to your needs, then build a solution that works best for you.

Often, we'll build a custom system engineered from our standard product line (outfitting it with needed automation, tooling, or coil handling).

Gap Frames Presses to 330 tons. Single- and double-point designs available.

Straightside Presses to 2,400 tons. Single-, two-, or four-point designs; crank or eccentric gear driven presses available.

Link Motion Presses to 2,400 tons. Single- and double-point designs. Link motion reduces the working stroke's velocity up to 40% for better overall productivity and part quality.

Servo Drive Presses. Contact us for more information on our new line of SDI Series.

**“Say Yes” to a SEYI
press. Contact us today.**
