## **Parts Quoting/Ordering Procedures**

Seyi Presses maintains a vast inventory of parts readily available and in stock at our Tennessee warehouse location.

To assure prompt and accurate processing of your quote, please have the following information on hand prior to calling:

- Press Model
- Press Serial Number
- Part Description

Part numbers and descriptions can generally be found in the back portion of the press operational manual. If this information is not available, the service department can email or fax a detailed parts drawing for proper identification. In certain instances a digital photo of the part in question may be required.

**All Purchase Orders must be received in written form, either by fax (931)-455-6092 or email prior to shipment of parts. Requests for expedited and same day shipments must be received before 3:00 pm CST.**
